A participant in many sports, Joanna started fencing in 2000 on the advice of the Polish national coach. Her favourite fencing memory to date was winning her first medal at a Junior World Cup event. Inspired by her parents (her father competed in volleyball at the Olympics), her strongest motivators are winning and her love of hard work. Joanna trains six to ten times a week, enjoys running and blade work the most, and works part-time. As well, she is always using her computer to advance her ambitions in the field of graphic design. Joanna speaks English, Polish and French, and has a BA degree in graphic design from St. John's University in Queens, New York. Apart from competitive fencing Joanna wants to pursue a career in the world of fashion, primarily for fashion magazines. Her favourite music is funk rock and electro, and Joanna has her own website at 'joannaguy.com'. Medaling at the Olympics remains Joanna's ultimate goal.
